5-DAY TRAINING PROGRAM: IT, AI, AND LEGAL PERSPECTIVES FOR IT PROFESSIONALS, IT ENGINEERS, AND LAWYERS

Date

February 24-28, 2025

location

Russian-Armenian University

INTRODUCTION

PROGRAM OBJECTIVES

- **Case Studies:** Explore real-world applications to bridge the gap between theory and practice, offering participants hands-on learning experiences.
- **Panel Discussions:** Engage with industry leaders for valuable insights, fostering a broader understanding of trends and challenges in IT, AI, and law.
- **Networking Opportunities:** Build cross-disciplinary relationships, promote knowledge sharing, and encourage collaborative problem-solving.

TARGET AUDIENCE

- **IT Professionals:** Deepen your understanding of IT and AI's impact on compliance, risk management, and organizational strategy.
- **IT Engineers:** Learn about the legal frameworks shaping technology development and gain essential knowledge for informed decision-making.
- **Lawyers:** Stay ahead of technological advancements and understand their implications for legal practice and policy development.

PROJECT BACKGROUND

In an era defined by rapid advancements in technology and artificial intelligence, professionals across industries must adapt to the growing intersections of IT, AI, and law. This 5-day training program is designed to address the emerging challenges and opportunities within this dynamic landscape.

Hosted at the Russian-Armenian University from February 24-28, 2025, the program brings together IT professionals, IT engineers, and lawyers to foster interdisciplinary knowledge and collaboration. Participants will gain valuable insights into legal frameworks, AI ethics, IT security, and innovative strategies for navigating regulatory complexities, enabling them to excel in their respective fields.

This initiative reflects our commitment to advancing professional education and building a foundation for innovation, compliance, and responsible technology integration.

Opportunity

- ✓ Comprehensive Education
- ✓ Internship opportunity
- ✓ Practical Learning
- ✓ Networking Potential
- ✓ Certification and Professional Recognition

TIMELINE

Day 1

Introduction to IT and AI in the Legal Landscape

Data Privacy and Cybersecurity
Data Protection Laws

Day 2

Day 3

AI Technologies and Their Legal Implications

Compliance, Governance, and Risk Management
Governance Frameworks

Day 4

Day 5

Future Trends and Skills Development

KEY TOPICS

Day 1: Introduction to IT and AI in the Legal Landscape The Intersection of IT, AI, and Law

- Overview of IT and AI technologies
- The evolving role of technology in legal practice
- Case studies: Successful integration of IT in legal firms
- Understanding Legal Frameworks
- Introduction to technology-related laws (e.g., data privacy, cybersecurity)
- Overview of AI regulations and guidelines
- Ethical considerations in AI deployment

Day 2: Data Privacy and Cybersecurity: Data Protection Laws

- GDPR and its global implications
- CCPA and other regional data protection laws
- Best practices for compliance
- Cybersecurity Challenges
- Understanding cybersecurity threats in the legal sector
- Legal responsibilities for data breaches
- Developing a cybersecurity strategy: collaboration between IT and legal teams

Day 3: AI Technologies and Their Legal Implications AI Technologies Overview

- Key AI technologies: machine learning, natural language processing, and robotics
- Applications of AI in legal research and contract analysis
- Limitations and risks associated with AI in legal settings
- Regulatory Challenges
- Current regulatory landscape for AI
- Discussion on AI bias and accountability
- Framework for ethical AI use in legal practice

KEY TOPICS

Day 4: Compliance, Governance, and Risk Management

- Governance Frameworks
- Establishing a governance framework for IT and AI in legal contexts
- Importance of interdisciplinary collaboration
- Developing policies and procedures for compliance
- Risk Management Strategies
- Identifying risks associated with IT and AI
- Tools and methodologies for risk assessment
- Creating a risk management plan

Day 5: Future Trends and Skills Development

- Emerging Technologies in Law
- Future technologies shaping the legal landscape (e.g., blockchain, smart contracts)
- Predictions for AI and legal practice in the next decade
- Skills required for IR professionals, IT engineers, and lawyers in the evolving landscape
- Developing a Collaborative Culture
- Fostering collaboration between IT and legal teams
- Importance of continuous learning and adaptation
- Strategies for effective communication across disciplines

COURSE PRICELIST

Audience	Fee (AMD)
1. Russian-Armenian University	20,000 AMD
2. Other university students	30,000 AMD
3. Online Participants	40,000 AMD
4. Lawyers & Other Professionals	65,000 AMD

Additional Information:

- Payment Options: Bank transfer, or credit card.
- Registration Deadline: February 14, 2025.
- Language: English and Armenian

Scholarships:

2 Scholarships Available:

- Eligibility: Open to students from any university.
- Requirements: Must submit a motivation letter to apply.
- Scholarship Provided by: Resolve Academy.
