

**Russian-Armenian University  
Institute of Economics and Business  
Department of Economics and Finance**

**"Economics"**

**Bachelor**

The accredited bachelor program "**Economics**" was developed taking into account the requirements of the labor market on the basis of the RA higher professional education standards, taking into account the requirements of the modern Armenian and international labor markets.

**The goals** of the program are to provide students with a wide range of knowledge in the field of banking, insurance and investment, financial management, the securities market, the formation and execution of budgets of various levels, the management of cash flows of organizations, etc.

After graduation, graduates are able to identify and analyse economic and financial problems in various circumstances, develop ways to solve them and evaluate the results of proposed activities, and also have the skills to economic analysis of financial, accounting and statistical information, skilfully use modern technologies to solve economic and financial problems.

The organization of the educational process is based on the principles of an asynchronous system, which allows students to choose 30% of the disciplines studied and independently create their own learning trajectory for four years. Graduates of the bachelor " Economics " are in demand in the financial system, in the public and real sector of the economy both in Armenia and in foreign labor markets.

Upon graduation, the graduate is awarded two state diplomas on higher professional education with the qualification degree "Bachelor of Economics " of the Republic of Armenia and Russian Federation.
